

We're taking to the streets Marrakesh E-Prix

January 13 2018

GKN takes to the streets at the Marrakesh E-Prix:

The only African race of the Season 4 calendar will take place at the Circuit Moulay El Hassan in central Marrakesh.

The circuit features the longest track of the season, with long straights facilitating blistering speeds approaching 200km/h and several tight chicanes.

This combination means that energy management will be a huge consideration for all the teams in Marrakesh.
