

# We're taking to the streets

## Paris E-Prix

*April 28 2018*

### GKN takes to the streets at the Paris E-Prix:

Formula E returns to the city of love this year, with the track's awe-inspiring view of the Eiffel tower providing a perfect backdrop to the race.

The race cars will race neck and neck on Circuit Des Invalides once again, which circles the military museum and Napoleon's tomb in the heart of Paris.

Every track in Formula E has unique challenges. Paris is no different, with an inconsistent road surface and a very narrow track, rivalled only in the race calendar by Hong Kong.

The Paris E-Prix has always been a fan favourite, and sell-out crowds are anticipated again this year, so get your ticket now!
