

We're taking to the streets

Zurich E-Prix

June 10 2018

GKN takes to the streets at the Zurich E-Prix:

The European leg of Season 4 comes to a climactic finish at the Zurich E-Prix.

The picturesque city has a unique relationship with motorsport, having banned racing since a major accident in the 1950's. The law was recently relaxed to allow electric racing, paving the way for Formula E to hold the first race to occur in Switzerland in over 60 years.

There is everything to play for in Switzerland's biggest city as Season 4 draws to a close, and all eyes will be on the scoreboard as the teams battle to rise through the standings.
